Genoua, Sept. 16. *N. S.*

SIr *Lambert Blackwell*, Envoy Extraordinary from Her Majesty of *Great Britain*, came hither the 12th Instant from *Florence*: He has given notice of his Arrival to the Doge and Senate, who appointed four of their Noblemen to Compliment him; and he is preparing for his publick Audience.

Rome, Sept. 23. A Courier came hither this week with an Account, that the *French* Squadron, commanded by the Chevalier *de Fourbin*, was come to *Porto di Gorro* in the *Ferrarese*, and had burnt some Boats in the Mouth of the *Po* belonging to the Pope's Subjects; upon which the Congregation of State has met several times, but we do not yet hear what Resolutions they have taken. Several Couriers are lately passed by this Place, with Letters from the *French* Court for the Count *de Toulouse*, who is still on the Coast of *Messina*, directing him to return forthwith with his Squadron to *Toulon*. The *Spanish* Ambassador had lately an Audience of the Pope, and happening to mention the Investiture of *Naples* and *Sicily*, the Pope turned away from him, and would not hear him any longer. They write from *Naples*, that 300 Foot were embarking there, in order to their being transported to *Catalonia*; That the Persons who were principally concerned in the late Disturbances between the *French* Soldiers in Garison there and the *Spaniards*, are condemned, some to be put to Death, and others to the Galleys; And that Monsieur *de la Trimouille*, who was appointed to inspect the Customs, and other publick Revenues of that Kingdom, being come thither to execute his Commission, the Council of State would not allow of it because he is not a Native; upon which he has writ to *France*, and expects farther Directions.

From the Imperial Camp near Luzzara, Sept. 24. The 18th Instant, Lieutenant-Colonel *Patte* was sent out with 200 Horse towards the *Modeneze* to observe the Enemy. Major *St. Amour*, who was abroad with a Party of Horse, sent an Account, that the Enemy having bought up a good quantity of Corn at *Verona*, came with a Guard of 1000 Horse and Foot to fetch it away, in order to lay it up at *Mantua*; but the Country People would not furnish them with Wagons, unless the *French* would give them Security, that they should be paid the full Value thereof if they were taken by our Forces, which they refusing to do, were forced to leave the Corn behind. The 19th, we foraged with the Loss only of a Corporal of Dragoons, who was killed venturing out too far. The Body of the Enemy, which was abroad in the *Modeneze*, returned to their Camp, having been seen out only to cover their Foragers. Colonel *Kirchbaum* sent Advice, that he was arrived at *Mirandola* with his 200 Horse and the Troops of *Wolfembuttel*, and that 5 Regiments of the Enemy's Horse and 4 of their Foot were come to *Carpi* in the *Modeneze*, but were very weak, and did not seem to have any other Design than to quarter there. The 20th, we foraged again without any Loss. There being a Report, that a *French* Regiment of Dragoons was marching to *Goito*, Major *St. Amour* was sent with 200 Horse to *Ostiglia* in order to observe them. Our small Parties brought hither 7 or 8 Prisoners. We heard, that the Enemy were making a Bridge of Boats over the *Po* at *Guastalla*, intending to retire towards that Place, and to break down their Bridge near *Luzzara*. We received an Account, that the night before, the *Spanish* Soldiers, which kept Guard in the Duke of *Anjou*'s Quarters, were on a sudden removed, and in their stead a *French* Guard of 3 Companies of Granadiers, and 30 Gendarmes on Foot, was placed there, and 8 *French* Officers were ordered to lie in his Chamber to prevent any Surprize, which caused a great Alarm in their Camp, and much murmuring among the *Spaniards*. A Party of 30 *Hussars* killed 30 of the Enemy near *Carpi*, and brought in 2 Prisoners, and 7 Head of Cattel. The 21st, a Party of 60 Horse went out towards *Mantua*, and meeting with one of the Enemy, killed several, and brought in 7 Prisoners, and 54 Head of Cattel. Our small Parties likewise brought in 9 or 10 Prisoners. The two Colonels of *Hussars*, *Ebergenni* and *Paul Diack*, with 100 of their Men, and Adjutant-General *Davia* with 30 Horse, went out to make an Excursion into the *Milaneze*, and are to continue abroad 3 Weeks. The 22d, our Right Wing foraged without any interruption. The Enemy began to make Repartition of their Winter-Quarters, which are to extend from the *Po* by *Guastalla*, *Reggio*, and *Carpi*, to *Corregio* and *Modena*. The 23d, our Left Wing foraged without any Loss; their Guard on the contrary having taken some Cattel from the Enemy. It was confirmed, that the Enemy intend to retire towards *Guastalla*, and we saw them sending some of their Cannon to the other side of the *Po*. The 24th, the Enemy were drawing together a great number of Country People in the *Milaneze* and the *Montferrat*, who are to be employed in making a Line to cover their Winter-Quarters; We have again received Advice, that the Duke of *Anjou* will soon be going back to *Spain*, and that the Enemy will shortly decamp and march into Quarters. Yesterday they made a General Forage towards the *Parmesan*, committing great Disorders. We received an Account from *Bersello*, that a Lieutenant of Dragoons, who was abroad with a Party, seeing some Boats which the Enemy were sending down the *Po* to their new Bridges, found means to seize 8 of them, killing and taking Prisoners those who were on board them, and afterwards burnt the Boats.

Copenhagen, October 3. The 29th of the last Month, Mr. *Vernon*, Her Majesty of *Great-Britain*'s Envoy Extraordinary, had Audience in the usual manner at *Jagersberg* of the 3 Princes, and of the Princess *Sophia Hedwig*, Brothers and Sister to the King of *Denmark*. The same day the *Swedish* Minister at this Court (there being none
